

PLATFORMS & INFRASTRUCTURE

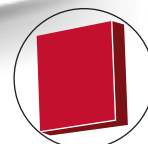

As well as rolling stock, Craig & Derricott have a vast amount of experience in providing niche solutions for rail infrastructure including: platforms, public access areas, maintenance workshops and underground installations.

Tunnel Emergency Lighting Controls

Emergency Stops

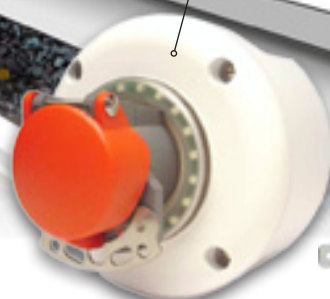

Illuminated Emergency Stops

Switch Disconnectors

Constructed with components and paint finish approved for underground use.

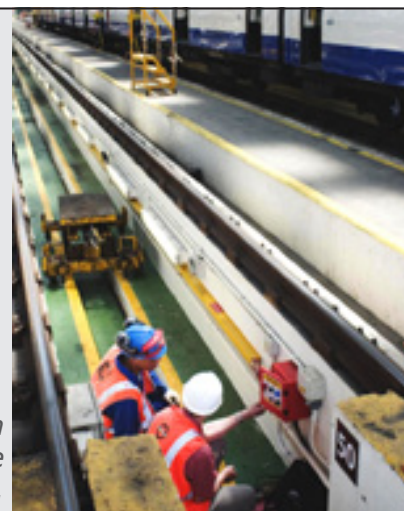

Platform Controls

This literature only shows a small sample of projects that we have carried out recently. At Craig & Derricott we treat every project individually and have all of the experience and skills to enable us to produce the ideal solution to your unique circumstances. All of our products exceed current standards and legislation and we have gained an enviable reputation for the quality of our installations.

We are confident that we can make your project easier from start to finish.

Safety grabwire protection system being installed in a maintenance pit in one of LUL's depots.

COMPLETE SOLUTIONS for the RAIL SECTOR

At Craig & Derricott we understand that no two projects are the same.

That is why we have a dedicated team of specialist engineers who can draw upon their vast experience to provide you with a unique design solution to meet your specific requirements.

For too long manufacturers, installers and specifiers have tried to mix and match component parts to meet their needs, but now you can simply hand over your project to Craig & Derricott and we will create the ideal (and most cost effective) solution to your requirements.

Just contact our sales team and we'll be delighted to discuss your project in more detail.

(The particular solutions shown in this brochure are representative only; many more items for the areas shown have been engineered and delivered by C&D)

C&D CRAIG & DERRICOTT ...make the switch

Craig & Derricott specialise in 'refurbishment' projects and has a well establish set of procedures for handling long running return and replacement contracts.

Before...

PASSENGER COMPARTMENTS

Passenger Access Panels

1

With the introduction of 'Disabled Access' regulations additional 'call for aid' alarms will be required by the vehicle builder.

Craig & Derricott have developed a range of options adaptable to suit most carriage interior designs.

All products are compliant with 'PRM TSI' regulations.
